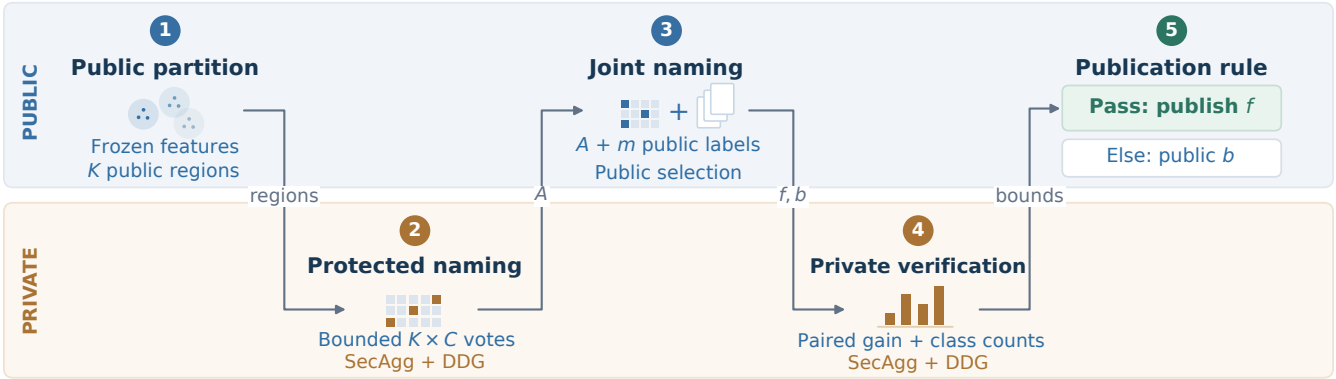
# One deployment, one composed privacy budget



**BUDGET**

$$\rho_{\text{name}} + \rho_{\text{gain}} + \rho_{\text{class}} \le \rho_{\text{total}}$$

| $\rho_{\text{name}}$ 50% | $\rho_{\text{gain}}$ 25% | $\rho_{\text{class}}$ 25% |
|---|---|---|

Reference split shown. Every private release is charged to the same whole-client ($\varepsilon$, $\delta$) budget.
